Faye Brockwell  
Southwest Research Institute  
6220 Culebra  
San Antonio, TX 78238

Dear Faye Brockwell:

Thank you for your application for renewal in the Environmental Laboratory Accreditation Program. Attached is a Certificate of Accreditation covering the one-year period beginning May 6, 2023 and a current Scope of Accreditation.

Accreditation is based in part on third party recognition of the Labs Texas Commission on Environmental Quality NELAP accreditation.

Nitrite by EPA 9056A\_(02/07) in Solid and Chemical Materials has been returned to Good Standing since two acceptable PTs were analyzed in the previous accreditation year.

All parameters by EPA 8081B\_(2/07) in Solid and Chemical Materials have been Withdrawn at laboratory request.

All analytes by EPA 8260D\_4\_(6/18) in Solid and Chemical Materials have been upgraded from Interim to Good Standing in recognition of your Texas audit report specifically citing that method revision. All parameters by EPA 8270E\_6\_(6/18) remain in Interim status since the audit report was not clear if that was the specific method revision the laboratory is following.

Isosafrole by EPA 8270E\_6\_(6/18) in Solid and Chemical Materials has been Denied since it is not present on the laboratory's Texas scope of accreditation.

n-Hexane Extractable Material (O&G) by EPA 1664A\_1\_1999 in Non-Potable Water has been Denied since no acceptable PT was analyzed in the previous accreditation year.

Renewal of accreditation is based in part on review of your lab's performance over the past year as evidenced by participation in proficiency testing (PT) studies. In general, full accreditation is awarded for those parameters for which the two most recent PT results, if applicable, were rated satisfactory. Provisional accreditation is awarded if the latest of the two most recent PT results was rated "Not Acceptable" or only one PT result was submitted during the past twelve months. Accreditation is withheld for those parameters for which the two most recent PT results were rated "Not Acceptable" or no PT results were submitted during the past twelve-months.

As a reminder, continued participation in the Ecology Lab Accreditation Program requires the lab to:

- Submit a renewal application and fees annually
- Report significant changes in facility, personnel, analytical methods, equipment, the lab's quality assurance (QA) manual or QA procedures as they occur
- **Participate in proficiency testing studies semi-annually, with the following exception: For each parameter where all PT results were satisfactory, you are required to submit only one PT result over this next year, and in subsequent years, as long as the results are satisfactory.**
- Submit copies of current third-party Scopes of Accreditation when they are available.

## Your Right To Appeal

You have a right to appeal Ecology's decision to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this decision letter. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do the following within 30 days of the date of receipt of this decision:

- File your appeal and a copy of this decision with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this decision on Ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.

is accredited for the analytes listed below using the methods indicated. Full accreditation is granted unless stated otherwise in a note. EPA is the U.S. Environmental Protection Agency. SM is "Standard Methods for the Examination of Water and Wastewater." SM refers to EPA approved method versions. ASTM is the American Society for Testing and Materials. USGS is the U.S. Geological Survey. AOAC is the Association of Official Analytical Chemists. Other references are described in notes.

Matrix/Analyte	Method	Notes
----------------	--------	-------

**Accredited Parameter Note Detail**

(1) Accreditation based in part on recognition of Texas Commission on Environmental Quality accreditation, NELAP. (2) Accreditation is limited to liquid matrix only. (3) Interim Washington accreditation pending successful completion of an on-site assessment of EPA 8260D and EPA 8270E by the Labs other recognized accreditors (Texas Commission of Environmental Quality). This accreditation is based in part on recognition of your currently held accreditations for previous method versions."
