

ISO 9001:2015 INTERNAL AUDITING

Learn the Fundamentals and Applications of ISO 9001 Internal Auditing

This two-day internal auditing course covers the revised ISO 9001:2015 Quality Management System (QMS) Standard, requirements and auditing techniques.

This internal audit training class will benefit individuals in an internal audit for the first time; employees of companies interested in implementation or management of ISO QMS; and quality professionals interested who want a refresher course.

Topics covered in this course will enable you to:

- Understand the ISO 9001:2015 QMS requirements.
- Understand the changes in the 9001:2008 revision.
- Plan and conduct effective internal audits.
- Document findings to support corrective action and continuous improvement
- Apply the proper interpretation of the standard in actual internal audit situations.
- Understand management's role in the QMS and auditing process.

This is a great way to expand your internal audit team. No prior audit experience necessary.

The Texas Manufacturing Assistance Center (TMAC) accelerates the profitable growth of manufactures by implementing methods, innovation, technology and best practices to develop and improve products, processes and people. TMAC South Central Region operates out of Southwest Research Institute (SwRI) in San Antonio, TX. TMAC is an affiliate of the Manufacturing Extension Partnership (MEP) program of the National Institute of Standards and Technology (NIST).
