

# Enhance Your Cybersecurity

In response to escalating attacks, TMAC is hosting Pat Toth, a top official from the Department of Commerce, to present on Cybersecurity.

The first part of the workshop will provide an overview of best practices, including understanding threats, protective actions and recovery. The second half of the morning will be more technical, specifically geared for those that are interested in implementing a robust deterrent system, and manufacturers that supply the Department of Defense, GSA or NASA which are required to be compliant to DFAR SP800-171.

Participants of this workshop that are defense suppliers are eligible to receive grant-funded TMAC consulting to review and implement the requirements. Inquire if interested.

Manufacturers Benefit From a Program That:

## WORKSHOPS

Austin, TX

May 14, 2019

San Antonio, TX

May 15, 2019

Cost: \$50

**TMAC**

The Texas Manufacturing Assistance Center (TMAC) accelerates the profitable growth of manufactures by implementing methods, innovation, technology and best practices to develop and improve products, processes and people. TMAC South Central Region operates out of Southwest Research Institute® (SwRI®) in San Antonio, TX. TMAC is an affiliate of the Manufacturing Extension Partnership (MEP) program of the National Institute of Standards and Technology (NIST).
