

This is to certify that the Quality Management System of:

## SwRI Defense & Intelligence Solutions Division 16

6220 Culebra Road, Buildings 168, 173, 304  
San Antonio TX 78238  
United States of America

Central function listed above. See appendix for additional locations

applicable to:

**Research, design, development, and manufacture of signal acquisition, exploitation, and geolocation systems, shipboard, airborne, and land-based SIGINT systems and subsystems, aircraft avionics, and support systems. This includes development hardware and software engineering, and post-delivery product support.**

has been assessed and approved by  
National Quality Assurance, U.S.A., against the provisions of:

## ISO 9001:2015 and AS9100:2016

and in accordance with the requirements of AS9104/1:2012.

A handwritten signature in black ink, likely belonging to a representative of NQA, USA.

For and on behalf of NQA, USA

Certificate Number: 12738  
EAC Code: 34  
Certified Since: July 23, 2008  
Valid Until: March 20, 2027  
Reissued: October 2, 2025  
Cycle Issued: March 21, 2024  
Site Structure: Multiple Sites

global assurance

Appendix to Certificate Number: 12738

**Includes Facilities Located at:**

**SwRI Defense & Intelligence Solutions  
Division 16**

Certificate Number 12738  
6220 Culebra Road, Buildings 168, 173, 304  
San Antonio TX 78238  
United States of America

Research, design, development, and manufacture of signal acquisition, exploitation, and geolocation systems, shipboard, airborne, and land-based SIGINT systems and subsystems, aircraft avionics, and support systems. This includes development hardware and software engineering, and post-delivery product support.

**Southwest Research Institute, Defense &  
Intelligence Solutions Division, Electronics  
Integration & Cyber Technology Department**

Certificate Number 12738  
653 Tallulah Trail,  
Warner Robins GA 31088  
United States of America

Specializing in research, design, development, integration, test, and evaluation to solve systems engineering problems for the aerospace industry and government. Areas of expertise include automatic test equipment, diagnostic systems, reliability and maintainability systems (Database), training systems, modeling, and simulation.

Certified Since: July 23, 2008

Valid Until: March 20, 2027

Reissued: October 2, 2025

Cycle Issued: March 21, 2024
