One Acquisition Solution for Integrated Services +

U.S. GENERAL SERVICES ADMINISTRATION (GSA) OASIS+ December 17, 2024 – December 16, 2029

SUMMARY

OASIS+ is a collection of governmentwide, multiple-award, indefinite delivery, indefinite quantity (IDIQ) contracts to support federal agencies' procurement requirements for services-based solutions.

SCOPE AND DOMAIN SELECTION

Contract scope is organized by functional groupings (domains) of related services spanning multiple NAICs codes. SwRI's contract in the Research and Development (R&D) Domain includes:

- Any requirements in support of R&D activities;
- R&D activities aimed at achieving either specific or general objectives;
- Basic research, applied research and experimental development; or
- Services in the physical, engineering and life sciences; nanotechnology; biotechnology.

TASK ORDER (TO) CONTRACT TYPES

Task orders may include multi-year or option periods, performance-based procedures, classified and/or unclassified, and commercial and/or non-commercial items. OASIS+ allows for all contract types or combination of contract types at the TO level including:

- Fixed-Price (all types),
- Cost-Reimbursement (all types),
- Time-and-Materials, and
- Labor-Hour.

OASIS+ FAQs

- Funding Ceiling: OASIS+ has no ceiling.
- Sole Source: Allowed, as long as one of the exceptions to fair opportunity as listed in FAR subpart 16.505(b)(2)(i)(A) through (F) applies.
- Source Selection Procedures: Streamlined procedures found at FAR 16.505 govern the OASIS+ ordering process; FAR 15.3 source selection procedures are not applicable.

ORDERING PROCEDURE SUMMARY

Two ways to access OASIS+:

Direct Acquisition: Customer agency Ordering Contracting Officer (OCO) obtains Delegation of Procurement Authority and performs the acquisition;

or

Assisted Acquisition: GSA performs the acquisition on behalf of the customer agency and provides post-award support, as negotiated with the customer. An Inter-Agency Agreement is required.

WHO CAN USE THIS CONTRACT?

OASIS+ contracts may be used by all federal agencies.

About Southwest Research Institute

SwRI is an independent, non-profit research and development organization performing Professional Engineering Services and contract R&D for government and private industry for 75 years. As a private, non-profit organization, SwRI is able to design solutions to technical problems utilizing the most appropriate products and processes.

SwRI provides technical services in the following technical areas:

- Applied Power
- Chemistry and Chemical Engineering
- Defense and Intelligence Solutions
- Fuels and Lubricants Research
- Intelligent Systems
- Mechanical Engineering
- Powertrain Engineering
- Solar System Science & Exploration
- Space Science
- Space Systems
