The 7th International Supercritical CO\textsubscript{2} Power Cycles Symposium

July 27 – July 30, 2020

Hilton Palacio del Rio, 200 South Alamo Street, San Antonio, Texas

The 7th International Supercritical CO\textsubscript{2} Power Cycles Symposium, co-sponsored by the US Department of Energy National Energy Technology Laboratory (NETL), will be held in San Antonio, Texas, July 27 – July 30, 2020.

This is a technical meeting bringing together industry, academia, and government agencies to advance supercritical carbon dioxide power cycle technology. The goal of the symposium is to create a network of expertise and technical understanding in the field. The theme of this event is "Advancing Supercritical Carbon Dioxide Power Cycles from the Laboratory to Large-Scale Operation."

This foremost conference for sCO\textsubscript{2} Power Cycles features:

- Keynote presentations by industry and government leaders
- Technical papers and tutorials by experts
- Industry and government R&D panel sessions
- Networking reception, lunches and dinner

The symposium will be preceded by a tutorial session and industry-sponsored reception on Monday, July 27, 2020.
